Rule No. 560-X-54-.01. Authority and Purpose

(1) Home and community-based services for the Technology Assisted Waiver for Adults are provided by the Alabama Medicaid Agency to individuals with disabilities who would otherwise require institutionalization in a nursing facility. These services are provided through a Medicaid waiver under the provisions of Section 1915(c) of the Social Security Act for an initial period of three (3) years and for five (5) year periods thereafter upon renewal of the waiver by the Centers for Medicare and Medicaid Services (CMS).

(2) The purpose of providing home and community-based services to individuals at risk of institutional care is to protect the health, safety, and dignity of those individuals while reducing Medicaid expenditures for institutional care.

It may include assistance with independent activities of daily living (IADLs) such as meal preparation, using the telephone, and household chores such as, laundry, bed-making, dusting and vacuuming, which are incidental to the assistance provided with ADLs or essential to the health and welfare of the client rather than the client's family.

(b) PC/AS is designed to increase an individual's independence and ability to perform daily activities and to support individuals with physical disabilities in need of these services as well as those seeking or maintaining competitive employment either in the home or an integrated work setting.

(c) PC/AS is not an entitlement. It is based on the needs of the individual client as reflected in the Plan of Care.

- (2) Private Duty Nursing.

(a) The Private Duty Nursing Service is a service which provides skilled medical observation and nursing services performed by a Registered Nurse or Licensed Practical Nurse who will perform his/her duties in compliance with the Nurse Practice Act and the Alabama State Board of Nursing. Private Duty Nursing under the waiver will not duplicate Skilled Nursing under the mandatory home health benefit in the State Plan. If a waiver client meets the criteria to receive the home health benefits, home health should be utilized first and exhausted before Private Duty Nursing under the waiver is utilized.

(b) Private Duty Nursing Services are not an entitlement. They are based on the needs of the individual client as reflected in the plan of care.

- (3) Medical Supplies.

(a) Medical supplies and appliances includes devices, controls, or appliances specified in the Plan of Care, not presently covered under the State Plan, which enable the individual to increase his/her abilities to perform activities of daily living, or to perceive, control, or communicate with the environment in which he/she lives. All waiver medical supplies and appliances must be prescribed by a physician, be

medically necessary and be specified in the Plan of Care. Medical supplies and appliances do not include over-the-counter personal care items such as toothpaste, mouthwash, soap, cotton swabs, Q-tips, etc. Items reimbursed with waiver funds will be in addition to any medical supplies furnished under the State Plan and exclude those items which are not of direct medical or remedial benefit to the individual.

(c) Medical supplies and appliances are limited to \$6,000 per client per waiver year. Documentation of items purchased will be maintained by the targeted case manager. An additional amount above that of \$6,000 may be requested by the client and prior approved by Medicaid if medically necessary.

(4) Assistive Technology.

(a) Assistive Technology includes devices, pieces of equipment or products that are modified, customized and used to increase, maintain or improve functional capabilities of individuals with disabilities as specified in the Plan of Care. It also includes any service that directly assists an individual with a disability in the selection, acquisition or use of an Assistive Technology device. Such services may include acquisition, selection, design, fitting, customizing, adaptation, application, etc. Items reimbursed with waiver funds exclude items which are not of direct medical benefit to the recipient. Receipt of this service must be based upon medical necessity to prevent institutionalization as documented in the medical record and all items must meet applicable standards of manufacture, design and installation.

Rule No. 560-X-54-.07 Payment Methodology for Covered Services

(1) Payments made by Medicaid to providers will be on a fee-for-service basis. Each covered service is identified on a claim by a procedure code.

(2) For each recipient, the claim will allow span billing for a period up to one (1) month. There may be multiple claims in a month; however no single claim can cover services performed in different months. For example, claims with dates of service of 2/22/03 to 3/22/03 would not be allowed. If the submitted claim covers dates of service where part, or all of which were covered in a previously paid claim, the claim will be rejected.

(3) Payment will be based on the number of units of service reported on the claim for each procedure code.

(4) Accounting for actual cost and units of services provided during a waiver year must be captured on CMS 372 Report. The following accounting definitions will be used to capture reporting data, and the audited figures used in establishing new interim fees:

(a) A waiver year consists of 12 consecutive months starting with the approval date specified in the approved waiver document.

(b) An expenditure occurs when cash or its equivalent is paid in a quarter by a state agency for waiver benefits. For a public/governmental provider, the expenditure is made whenever it is paid or recorded, whichever is earlier. Non-cash payments, such as depreciation, occur when transactions are recorded by the state agency or the provider.

(c) The services provided by an operating agency are reported and paid by dates of service. Thus, all services provided during the 12 months of the waiver year will be attributed to that year.
