

What you need to know about your pain medicine.

Your doctor has prescribed you pain medicine. Pain medicine has a higher risk of overdose, addiction, and death. Alabama Medicaid is limiting how much pain medicine you can get because of this risk.

You can get a 7-day supply if you are age 19 or older.

You can get a 5-day supply if you are age 18 or younger.

Important!

- ❑ You cannot pay cash for the rest of the medicine if Medicaid pays for the first few days.
- ❑ Your doctor can ask for an exception *if* there is a medical reason you need more than the limit.
- ❑ Your doctor may need to prescribe a lower dose.
- ❑ Please contact your doctor's office if you have any questions about your prescription.
