<sup>1</sup> Federal Medical Assistance Percentage (FMAP) is the share of the cost of Medicaid that the federal government incurs. That share varies by state depending on a state's per capita income. The average state FMAP is 59%, but ranges from 50% in wealthier states, up to 74% in states with lower per capita incomes (an FMAP cannot be less than 50% or more than 83% by statute). FMAPs are adjusted for each state on a three-year cycle to account for fluctuations in the economy.
