<sup>1</sup> The numbers shown are based on the date of service of claims as of a point in time and will change slightly going forward as existing claims are adjusted and new claims are received. Prior years are shown as originally reported. Includes inpatient psychiatric hospitals.

<sup>2</sup> Includes the allocation of access payments to inpatient claims.

<sup>3</sup> Includes a high percentage of disabled newborns certified by SSI which accounts for the disproportionately high average annual cost per recipient.

<sup>4</sup> The Medicaid Agency is a secondary payer behind Medicare and is generally only responsible for deductibles and co-payments.
