RE: Clarification of the Reversal of Payment Reductions

- **Clarification for Manually Priced Items**

Please find above the link to an ALERT that has been disseminated to all providers. Please note the 5 percent payment reduction reversal to DME providers will be effective October 1, 2014, for items which are paid automatically from the pricing file. **For manually priced items, the 5 percent payment reversal reduction will be applied for PAs received on or after October 1, 2014, and after.** The Agency is in the process of updating the State Plan to reflect the reversal; you will see the Public Notice of such in the September 30, 2014, Administrative Monthly. Please do not hesitate to contact me should you have additional questions.
