Introduction

File Download Process Overview

The AMMIS Interactive Services Website has several functional areas that perform specific operations for Alabama Medicaid users. This document is designed to cover the File Download process.

File Download Process Objective

The purpose of the File Download Process document is to provide information about the download option and to demonstrate how specific files returned from the AMMIS may be downloaded.

File Download Process Description

Trading Partners and Providers can download batch files or PDF formatted reports from the AMMIS through the AMMIS Interactive Services Website.

The download option allows the user to view or save specific files from the state's secure website to their own PC. The user has the capability to search for files based on transaction type, which returns a list ordered by the date the files became available, beginning with the most recent.

A hyperlink is provided to allow users to download and install Adobe Acrobat Reader which is required to view an electronic Remittance Advice (RA) report or a Managed Care Enrollment Roster in PDF format.

File Download Process

To Access the File Download Search Panel

Step	Action	Response
1	Select Trade Files from drop down main menu.	Drop down list options displayed.
2	Click Download .	File Download Search panel opens.
