

**State of Alabama****1905(a)(29) Medication-Assisted Treatment (MAT)**

Amount, Duration, and Scope of Medical and Remedial Care Services Provided to the Categorically Needy (continued)

**1905(a)(29) Medication-Assisted Treatment (MAT)**

Citation: 3.1(a)(1) Amount, Duration, and Scope of Services: Categorically Needy (Continued)

1905(a)(29) X MAT as described and limited in Supplement 4 to Attachment 3.1-A.

ATTACHMENT 3.1-A identifies the medical and remedial services provided to the categorically needy.

i. General Assurance

MAT is covered under the Medicaid state plan for all Medicaid beneficiaries who meet the medical necessity criteria for receipt of the service for the period beginning October 1, 2020, and ending September 30, 2025.

ii. Assurances

- a. The state assures coverage of Naltrexone, Buprenorphine, and Methadone and all of the forms of these drugs for MAT that are approved under section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and all biological products licensed under section 351 of the Public Health Service Act (42 U.S.C. 262).
- b. The state assures that Methadone for MAT is provided by Opioid Treatment Programs that meet the requirements in 42 C.F.R. Part 8.
- c. The state assures coverage for all formulations of MAT drugs and biologicals for OUD that are approved under section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and all biological products licensed under section 351 of the Public Health Service Act (42 U.S.C. 262).

iii. Service Package

The state covers the following counseling services and behavioral health therapies as part of MAT. “For the period of October 1, 2020, through September 30, 2025 Medication Assisted

**State of Alabama****1905(a)(29) Medication-Assisted Treatment (MAT)**

Amount, Duration, and Scope of Medical and Remedial Care Services Provided to the Categorically Needy (continued)

Treatment (MAT) to treat Opioid Use Disorder (OUD) is covered exclusively under section 1905(a)(29).”

- a) Please set forth each service and components of each service (if applicable), along with a description of each service and component service.

**Intake Evaluation**

Initial clinical evaluation of the recipient’s request for assistance. Substance abuse recipients undergo standardized psychosocial assessment. The intake evaluation presents psychological and social functioning, recipient’s reported physical and medical condition, the need for additional evaluation and/or treatment, and the recipient’s fitness for Medication Assisted Treatment (MAT) services.

**Medical Assessment and Treatment**

Face-to-face contact with a recipient during which a qualified practitioner provides psychotherapy and/or medical management services. Services may include physical examinations, evaluation of co-morbid medical conditions, development or management of medication regimens, the provision of insight oriented, behavior modifying, supportive, or interactive psychotherapeutic services, or the provision of educational services related to management of an opioid use disorder.

**Individual Counseling**

The utilization of professional skills by a qualified practitioner to assist a recipient in a face-to-face, one-to-one psychotherapeutic encounter in achieving specific objectives of treatment or care for a mental health and/or an opioid use disorder. Services are generally directed toward alleviating maladaptive functioning and emotional disturbances relative to a mental health and/or opioid use disorder, and restoration of the individual to a level of functioning capable of supporting and sustaining recovery. Individual Counseling may consist of insight oriented, behavior modifying, supportive, or interactive psychotherapeutic services.

**Family Counseling**

A recipient focused intervention that may include the recipient, his/her collateral\* and a qualified practitioner. This service is designed to maximize strengths and to reduce behavior problems and/or functional deficits stemming from the existence of an opioid use disorder that interferes with the recipient’s personal, familial, vocational, and/or community functioning. Family counseling that involves the participation of a non-Medicaid eligible is for the direct benefit of the beneficiary.

**State of Alabama****1905(a)(29) Medication-Assisted Treatment (MAT)**

Amount, Duration, and Scope of Medical and Remedial Care Services Provided to the Categorically Needy (continued)

The service must actively involve the beneficiary in the sense of being tailored to the beneficiary's individual needs. There may be times when, based on clinical judgment, the beneficiary is not present during the delivery of the service, but remains the focus of the service.

**Group Counseling**

The utilization of professional skills by a qualified practitioner to assist two or more unrelated recipients in a group setting in achieving specific objectives of treatment or care for an opioid use disorder. Services are generally directed toward alleviating maladaptive functioning and behavioral, psychological, and/or emotional disturbances, and utilization of the shared experiences of the group's members to assist in restoration of each participant to a level of functioning capable of supporting and sustaining recovery. Group Counseling may consist of insight oriented, behavior modifying, supportive, or interactive psychotherapeutic service strategies.

**Treatment Plan Review**

Review and/or revision of a recipient's individualized opioid use disorder treatment plan by a qualified practitioner who is not routinely directly involved in providing services to the recipient. This review will evaluate the recipient's progress toward treatment objectives, the appropriateness of services being provided, and the need for a recipient's continued participation in treatment.

**Opioid Use Disorders Update**

A structured interview process that functions to evaluate a recipient's present level of functioning and/or presenting needs. The assessment is used to establish additional or modify existing diagnoses, establish new or additional goals, assess progress toward goals, and/or to determine the need for continued care, transfer, or discharge.

**Psychoeducational Services**

Structured, topic specific educational services provided to assist the recipient and the families\* of recipients in understanding the nature of the identified opioid use disorder, symptoms, management of the disorder, how to help the recipient be supported in the community and to identify strategies to support restoration of the recipient to his/her best possible level of functioning. Services that involve the participation of a non-Medicaid eligible are for the direct benefit of the beneficiary. The service must actively involve the beneficiary in the sense of

**State of Alabama****1905(a)(29) Medication-Assisted Treatment (MAT)**

Amount, Duration, and Scope of Medical and Remedial Care Services Provided to the Categorically Needy (continued)

being tailored to the beneficiary's individual needs. There may be times when, based on clinical judgment, the beneficiary is not present during the delivery of the service, but remains the focus of the service.

**Medication Administration**

The administration of medication, including the use of FDA approved medications for the use of opioid use disorders, to recipients who have a diagnosed opioid use disorder. Medication is administered to support the recipient's efforts to restore adequate functioning in major life areas that have been debilitated as a result of opioid addiction. This service includes medication administration and concurrent related medical and clinical services.

**Peer Support Services**

Peer Support services provides structured, scheduled activities that promote socialization, recovery, self-advocacy, development of natural supports, and maintenance of community living skills, by Certified Recovery Support Specialists. Peer Support service actively engages and empowers an individual and his/her identified supports in leading and directing the design of the service plan and thereby ensures that the plan reflects the needs and preferences of the individual (and family when appropriate) with the goal of active participation in this process. Additionally, this service provides support and coaching interventions to individuals (and family when appropriate) to promote recovery, resiliency and healthy lifestyles and to reduce identifiable and increase healthy behaviors intended to prevent relapse and promote long-term recovery. Peer supports provide effective techniques that focus on the individual's self-management and decision making about healthy choices, which ultimately extend the members' lifespan.

- b) Please include each practitioner and provider entity that furnishes each service and component service.

See information listed below under c).

- c) Please include a brief summary of the qualifications for each practitioner or provider entity that the state requires. Include any licensure, certification, registration, education, experience, training and supervisory arrangements that the state requires.

**State of Alabama****1905(a)(29) Medication-Assisted Treatment (MAT)**

Amount, Duration, and Scope of Medical and Remedial Care Services Provided to the Categorically Needy (continued)

The eligible practitioners, the qualifications required and services furnished for those who may provide MAT services under the Rehabilitation Option Program are as follows:

- A **physician** licensed under Alabama law to practice medicine or osteopathy; Medical Assessment and Treatment; Intake Evaluation; Crisis Intervention; Individual Counseling; Family Counseling; Group Counseling; Treatment Plan Review; Mental Health and Opioid Use Disorders Assessment Update; Psychoeducational Services; Medication Administration.

i. Utilization Controls

**State of Alabama****1905(a)(29) Medication-Assisted Treatment (MAT)**

Amount, Duration, and Scope of Medical and Remedial Care Services Provided to the Categorically Needy (continued)

  X   Quantity limits

       The state does not have drug utilization controls in place.

## v. Limitations

Describe the state's limitations on amount, duration, and scope of MAT drugs, biologicals, and counseling and behavioral therapies related to MAT.

All of forms of drugs for MAT that are approved under section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and all biological products licensed under section 351 of the Public Health Service Act (42 U.S.C. 262) are covered. These drugs may be/are included in the scope of the Preferred Drug List, may require clinical criteria, and may have quantity limitations.

The state's limitations on amount, duration, and scope of MAT drugs, biologicals, and counseling and behavioral therapies related to MAT may be overridden based on medical necessity, and are as follows:

The limits for Medication Administration are hard coded and is only overridden every seven years for "leap year" when there is a day 366. The remaining MAT related services have soft limits that can be overridden for medical necessity. Medical necessity will be established from the recipient's condition at the time of the request, not the diagnosis alone.
